

BC's Challenge 2019

Achievement Criteria

Undertake Two Emergency Services Programs

The background to this year's challenge is to encourage all Cub Packs (Units) to engage in emergency services programs.

There is no prescription on what defines an emergency service organisation, and this can be left up to the individual Pack (Unit) to decide. The most common would be Police, Ambulance, Fire and SES.

It is anticipated that the badges will be available for purchase prior to undertaking the required activity so that they can be handed out on the day at the end of the activity.

To qualify for the badge the individual Cub Scouts or Leaders will need to undertake two activities from the following at any time during 2019:

- Visit an emergency services organisation
- Organise an emergency services organisation or representative, to visit the Pack (Unit)
- Undertake an emergency services themed program

Scout Central has some themed program ideas to assist.
