SNOW VENTURE

Every year Snow Venture gives Venturers from South Australia an unforgettable alpine adventure. We cross-country ski 11 km into the Bogong High Plains in Victoria staying at the historic Bogong Rover Chalet. This is the perfect location for a week filled with fun and friendship, thrills and spills, skiing and adventure.

Snow Venture is unbeatable value for money.

Itinerary

From Adelaide we travel to Mt Beauty by bus and collect our skis. The next morning we head up to Falls Creek by coach where we clip into skis and complete the final 11km to the Chalet cross-country skiing. We leave the resort area and head deep into the alpine wilderness where we'll spend the week. You will need to be fit and able to complete this distance by ski, carrying all your own gear and a share of the group's fresh food, but you don't need to know how to ski—you'll learn as you go. Once at the chalet we have seven days to hang out and explore the mountain environment from our very own Chalet. Exciting day ski trips are planned to explore the

many local summits and historic huts on the Bogong High Plains and our experienced leaders know the best places to go, even if the weather or snow conditions aren't perfect.

On our final day it is an early start to return back to Falls Creek, often experiencing an awesome glowing sunrise over the snow. Then back onto the buses and return to Adelaide with a stop overnight to break the trip.

Requirements

Snow Venture is a physically strenuous activity so it is important that you are suited to the demands. It is vital that you have some bushwalking experience and are competent at carrying a 12-15kg backpack having completed at least OAS Bushwalking Stage 4 and OAS Bushcraft and Camping Stage 3.

You will be part of a team, working together to keep the Chalet running and hungry skiers well fed. Venturers organise and run the evening program and you're encouraged to get involved in planning and leading ski tours.

A good attitude and willingness to get things done lifts the week for everyone.

Bogong Rover Chalet

The Bogong Rover Chalet is a historic lodge owned by the Victorian Rovers and located in the heart of the high plains. The Chalet provides a unique atmosphere and ideal base for adventure skiing, so we will be out most days making the most of the great terrain.

Chalet facilities include fully equipped kitchen and dining facilities, hot showers, washing machine, drying room, 240-volt power and dormitories with mattresses and pillows.

Snow Venture is organised and led by an experienced team of qualified Leaders who will make Snow Venture a fun, rewarding and safe experience for all levels of ability.

Snow Venture is super popular but there are only limited spots, so you need to get your application form and deposit in as soon as possible before the due date to avoid disappointment.
